

I am writing to beg you not to introduce LPFM and possibly take away our translator service. My family & friends are listeners of Air 1. Having this possitive music in our lives has helped keep our children on the right track. We have an option to good rock music without hearing about "killing cops", "raping girls", "stealing cars" or just being a hurtful person! I have seen this radio station keep our neighborhood on track. I invite anyone of you to visit our schools and point out the children who you think listen to the regular music offered by radio stations. It is easy to do. I know having Air 1 replaced would hinder a lot of progress in the local communities. It is such a positive message for EVERY religious denomination. I honestly can not count how many people I have directed towards Air 1 and the positive influence it has had on the community! Please don't take away the little bit of good we can find in this modern world!

Thank you for your time!
